

Motoki Saito

Curriculum Vitae

(Last updated: January 27, 2025)

Contact Information

Address: Room 192, Keplerstraße 2, 72074 Tübingen, Germany

Email: motoki.saito@uni-tuebingen.de

Website: <https://motokisaito.com/>

Current position

06/2024 - present Postdoctoral research assistant
Quantitative Linguistics, Seminar für Sprachwissenschaft, Philosophische Fakultät
Eberhard Karls Universität Tübingen (University of Tübingen)

Employment

06/2024 - present Postdoctoral research assistant
- University of Tübingen, Germany (with Prof. Dr. R. Harald Baayen)
- Investigate the isomorphy (covarying structure) between semantics and word-forms (sound/tongue positions)

02/2024 - 09/2024 Lecturer
- University of Tübingen, Germany
- Teaching of several courses and seminars
- See below (section “Teaching”) for more detail

02/2019 - 01/2024 Doctoral research assistant & Lecturer
- with Prof. Dr. R. Harald Baayen, University of Tübingen, Germany
- Experiment using ultrasound to record tongue movements for German words
- Corpus analysis with a computational model to investigate morphological and semantic effects on phonetics

08/2018 - 01/2019 Visiting doctoral research assistant
- with Prof. Dr. R. Harald Baayen, University of Tübingen, Germany
- Data processing and statistical analysis on language performance data
- Work on mathematical implementation of language processing

05/2018 - 07/2018 Visiting doctoral research assistant
- with Prof. Dr. R. Harald Baayen, University of Tübingen, Germany
- Data processing and statistical analysis on English lexical decision data
- Literature survey

01/2018 - 03/2018 Honorary research associate
- with Prof. Ben Ambridge, University of Liverpool, the UK

- Data processing of Japanese child-directed corpora with python
 - Setup of the experiment with a programming language called Processing.
- 06/2017 - 12/2017 Visiting doctoral research assistant
- with Prof. Dr. R. Harald Baayen, University of Tübingen, Germany
 - Data processing and statistical analysis on English eye-tracking data
- 11/2016 - 01/2017 Visiting postgraduate researcher
- with Dr. Dagmar Divjak, University of Sheffield, the UK
 - Data collection for acceptability judgment ratings
- 04/2016 - 07/2016 Teaching assistant in Japanese language as a second language
- Kyoto University, Japan
 - Lecture of Japanese for exchange students and visiting scholars.
 - Responsible for teaching and preparing classes.

Education

- 02/2019 - 01/2024 Ph.D. (Summa cum laude)
 Quantitative Linguistics, Seminar für Sprachwissenschaft, Philosophische Fakultät
 Eberhard Karls Universität Tübingen (University of Tübingen), Germany
 Dissertation:
*“Enhancement effects of frequency:
 An explanation from the perspective of Discriminative Learning”*
- 04/2015 - 03/2018 Partial fulfillment
 PhD Program in Human and Environmental Studies (Language Sciences)
 Kyoto University, Japan
- 04/2013 - 03/2015 Master of Arts (M.A.), Human and Environmental Studies (Language Sciences)
 Kyoto University, Japan
 Thesis:
*“A Cognitive Linguistic Factor Affecting Acceptability Judgment:
 An Investigation from a perspective of Cognitive Grammar”* (In Japanese)
- 04/2009 - 03/2013 Bachelor of Arts (B.A.), Law, with a Minor in Linguistics
 Waseda University, Japan
 Thesis: *“Unified Cognitive Activation Model”*

Awards, Scholarships, and Grants

- 08/2018 - 01/2019 **DAAD Short-term Research Grant** (€7,875)
 DAAD: Deutscher Akademischer Austauschdienst; German Academic Exchange Service
- 04/2017 - 03/2018 **JSPS KAKENHI Grant** (900,000JPY ≈ €7,000)
 JSPS: Japan Society for the Promotion of Science
- 04/2016 - 03/2017 **JSPS KAKENHI Grant** (1,000,000JPY ≈ €7,700)
 JSPS: Japan Society for the Promotion of Science
- 04/2016 - 03/2018 **JSPS Research Fellowship for Young Scientists (DC2)** (4,800,000JPY ≈ €37,000)
 JSPS: Japan Society for the Promotion of Science

- 12/2015 **Outstanding Presentation Awards at the 32nd Annual Meeting of the JCSS**
 JCSS: Japanese Cognitive Science Society
- 03/2015 **Research Grant for Presentation at International Conference (350,000JPY ≈ €2,700)**
 The Kyoto University Foundation

Current research topic

- Effects of semantics on phonetic realizations.
 - Phonetic realizations of linguistic units such as segments and words are influenced by a number of factors. Among others are effects of frequency and effects of morphological complexity. Based on Linear Discriminative Learning, I am working on semantic basis of these effects.
- Interaction of sonority and effects on phonetic realizations.
 - Segments can be reduced or enhanced by a number of factors such as frequency. Degrees of reduction and enhancement, however, can be different for segments of different sonority. More audible sounds are worth spending more articulatory effort to make them clearer, while less audible sounds may not. I investigate such modulation effects by sonority of segments.

Preprints

- [13] **Saito, Motoki**, and Jessie S. Nixon. (Under review). Selective signal strengthening: speakers only enhance cues most likely to improve listener perception. *PsyArXiv* (to be uploaded).
